Subject Index

A

Abdominal: pseudocyst; after ventriculoperitoneal shunt, 73
tuberculois; the most probable aetiology in a case of recurrent abdominal pseudocyst after ventriculoperitoneal shunt, 73
Abstracts: presented by the Australian College of Paediatricians, 233
presented by the Paediatric Reseach Society of Australia, 337
Abused children: and children with non-organic failure to thrive; comparison of their parents, 177
Acquired toxoplasmosis: associated with haemolytic anaemia, 333
Adenoma: toxic; in childhood (Letter to the Editor), 259
Agammaglobulinaemia: and meningioencephalitis due to Echo virus 27, 229
Air leaks: pulmonary; in ventilated preterm infants (Editorial Comment), 279
Aldosterone and renin: role of; in establishment of electrolyte balance in very low birthweight infants, 209
Allergens: their role in childhood atopic disease (Review Article), 161
Anaemia: haemolytic; associated with acquired toxoplasmosis, 333
Antidiuretic hormone: response to therapy for acute asthma, 323
Antimicrobial properties: and microbial contaminants of breast milk (Invited Review), 265
Asthma: antidiuretic hormone response to therapy for, 323
medication compliance in children with, 47
the effect of a home exercise programme in children with, 297
transcutaneous oxygen monitoring during acute attacks of, 213
Atresia: oesophageal; in father and daughter, 329
Atopic disease: the role of allergens in childhood (Review Article), 161
Apnoea: in infants and children with whooping cough, 101
in very low birthweight infants, 131
Auditory brainstem evoked response audiometry, 115
Australia and the development of perinatology (Editorial Comment), 277
Australia: Indo-Chinese children; primary health care, 57
Australian College of Paediatricians: Abstracts of papers presented at the 29th Annual meeting in May 1984, 233
Australian infants: behaviour and temperament, 181
Autologous bone marrow rescue and high dose multiagent chemotherapy in the treatment of childhood solid tumours, 195

B

Behaviour: problems and enuresis, 39
of Australian infants, 181
Bilateral diaphragmatic paralysis: neonatal; requiring surgery, 317
Bilirubin binding capacity: to diagnose kernicterus, 63
Biochemical diagnosis of Type 1b glycogen storage disease, 217
Birth history: reliability of record and mothers' recall, 185
Birth order: relationship to demographic variables, 35
Birthweight: relationship to demographic variables, 35
Bone marrow rescue: autologous; and high dose multiagent chemotherapy in the treatment of childhood solid tumours, 195
Breast feeding: its effect on the weight distributions of Tasmanian children, 105
Breast milk: its antimicrobial properties and microbial contaminants (Invited Review), 265

C

Candidiasis: systemic; in premature infants, 127
Characteristics: perinatal, 23
of Australian infants, 181
Chemotaxis: decreased neutrophil; and chronic granulomatous disease, 119
Chemotherapy: high dose multiagent; autologous bone marrow rescue, in advanced tumours, 195
Child abuse: comparison of the parents with the parents of children with non-organic failure to thrive, 177
Childhood: acute lymphoblastic leukaemia; testiclur relapse, in Malaysia, 317
atopic disease and the role of allergens (Review Article), 161
nutrition, 187
solid tumours; treatment of, 195
toxic adenoma (Letter to the Editor), 259
Chinese: family with progessive dystonia, 143
Indo-Chinese children in Australia; their health care, 57
two children with intestinal lymphangiectasia, 151
Cognitive development and perinatal problems, 23
Croup: viral; treated with humidification, 289
Cystic fibrosis: the effect of a home exercise programme, 297
treatment with nebulized gentamicin, 43

D

Demographic variables: relationship to weight, height and weight for height, 35
Deprivation: maternal; and non-organic failure to thrive (Invited Review), 95
Development: and assessment of children with school problems (Invited Review), 271
failure of Mullerian duct, 325
of perinatology in Australia (Editorial Comment), 277
of very low birthweight infants, 29
Diagnosis: accurate radiological; in a Casualty Department of a children's hospital, 221
of fetal abnormalities, using ultrasound, 67
of kernicterus using bilirubin binding capactiy, 63
of thoracic neuroblastoma (Invited Review), 17
of Type 1b glycogen storage disease, 217
Diaphragmatic paralysis: neonatal bilateral; requiring surgery, 331
Dystonia: progressive; in a Chinese family, 143

E

Education: of medical graduates in radiological diagnosis, 221
Electrolyte balance: in very low birthweight infants and the role of renin and aldosterone, 209
Emergency Department: in a hospital and the radiological services, 109
Emphysema: pulmonary interstitial; selective intubation, 317
Energy and nutrient intake: at age 4, 187
Enterocolitis: necrotizing; in very low birthweight infants, 29
Enteropeptidase/trypsin fluorometric microassay: comparison with a titrimetric assay, 313
Enuresis: and behaviour problems, 39
Ethnic origin: relationship with demographic variables, 35
Exercise: the effect of a home programme on children with asthma and cystic fibrosis, 297
Extrahepatic portal hypertension: control of bleeding, 147

F

Familial: relationship in oesophageal atresia, 329
Fetal urinary tract abnormalities: detected on maternal ultrasound, 67
Food additives (Annotation), 171

G

Gastrointestinal tract bleeding: in extrahepatic portal hypertension; control of, 147
Genetic: relationship in oesophageal atresia, 329
Gentamicin: nebulized; for treatment of cystic fibrosis, 43
Giardiasis in Tasmania (Letter to the Editor), 259
Glycogen storage disease: Type 1b; biochemical diagnosis of, 217
Graduate medical education: in radiological diagnosis, 221
Granulomatous disease: chronic; and neutrophil chemotaxis, 119
Growth and development of very low birthweight infants, 29

H

Haemolytic anaemia: associated with acquired toxoplasmosis, 333
Health care: for children of single mothers in a Perth suburb, 203
for preschool children, 281
for Indo-Chinese children in Australia, 57
Henoch-Schölein purpura, 13
Hernia: strangulated umbilical; in infancy, 75
High dose chemotherapy: and autologous bone marrow rescue in the treatment of childhood solid tumours, 195
Home exercise programme: for children with asthma and cystic fibrosis, 297
Home monitoring: of infants at risk of 'sudden infant death syndrome', 137
Hospital: Emergency Department and the radiological services, 109
Casualty Department and the accuracy of radiological diagnosis, 221
Hospitalization: prolonged; outcome of very low birthweight infants who required it, 293
Humidification: in viral croup, 289
Hypertension: extrahepatic portal: control of bleeding, 147
persistent pulmonary; survival after, 123
Hyponatraemia: in very low birthweight infants, 209

I

Immunization: (Annotation), 89
of infants and children with whooping cough, 101
pertussis vaccination (Editorial Comment), 91
status of children of single mothers in a Perth suburb, 203
Indo-Chinese children: health care in Australia, 57
Infant feeding practices: their effect on the weight distribution of Tasmanian children, 105
Intelligence: perinatal, 23
Intensive care policies: neonatal; effectiveness of, 85
Intermittent positive pressure ventilation: its use in persistent pulmonary hypertension, 123
Interstitial emphysema: pulmonary; selective intubation, 317
Interpretation: of radiographs in a Hospital Emergency Department, 109
Intestinal lymphangiectasia: in two Chinese children, 151
Intubation: selective; for pulmonary interstitial emphysema, 317
Intussusception: in Henoch-Schölein purpura, 13

J

Jaundice: in full term healthy neonates, 303

K

Kernicterus: diagnosis of; using bilirubin binding capacity, 63

L

Language: perinatal development of, 23
L-dopa: as treatment of progressive dystonia in a Chinese family, 143
Learning difficulties: of children with school problems, 271
Leukaemia: childhood acute lymphoblastic; testicular relapse in, 53
Liver metals: in cases of 'sudden infant death syndrome', 141
Localized pulmonary interstitial emphysema: treated with selective bronchial intubation, 317
Longitudinal study: of enuresis from 5 to 9 years, 39
of perinatal cognitive development, 23
Lymphangiectasia: intestinal; in two Chinese children, 151
Lymphoblastic leukaemia: childhood acute; testicular relapse in, 53

M

Macdonald, Professor Willaim Bowie (Obituary), 1
Malaysia: case of testicular relapse in childhood acute lymphoblastic leukaemia, 317

Maternal deprivation and non-organic failure to thrive, 95
Medical consultations: for preschool children, 281
Medication compliance: in children (Editorial Comment), 5
in children with asthma, 47
Meningitis: Salmonella; in infancy, 225
Meningioencephalitis: due to Echo virus 27, and agammaglobulinaemia, 229
Microassay: fluorometric of trypsin/enteropeptidase; comparison with titrimetric assay, 313
Microbial contaminants: and antimicrobial properties of breast milk (Invited Review), 265
Monitoring: of oxygen; in acute asthma, 213
techniques; in newborn infants, 309
of infants at risk of 'sudden infant death syndrome', 137
Morbidity: during preschool years, 281
Moxalactam: and Salmonella menigitis in infancy, 225
Multiagent chemotherapy: high dose; and autologus bone marrow rescue, 195
Multiple pregnancy: ultrasonic fetal weight estimation, 59

N

Nebulized gentamicin: treatment for cystic fibrosis, 43
Necrotizing enterocolitis: in very low birthweight infants, 29
Neonatal: apnoea in very low birthweight infants, 131
bilateral diaphragmatic paralysis requiring surgery, 331
intensive care policies (Annotation), 29
jaundice, 303
Po_2 monitoring techniques, 309
resuscitation (Letter to the Editor), 77
Serratia, 205
Neuroblastoma: thoracic, (Invited Review), 17
Neutrophil chemotaxis: and granulomatous disease, 119
Non-organic failure to thrive: (Invited Review), 95
and abused children; comparison of their parents, 177
Nutrient intake at the age of 4, 187
Nutritional studies during childhood, 187

O

Oesophageal atresia: in father and daughter, 329
Oral rehydration: (Annotation), 7
Oxygen monitoring: of infants at risk of 'sudden infant death syndrome', 137
techniques; in the newborn, 309
transcutaneously; during acute asthma, 213
Outcome: of very low birthweight infants who required prolonged hospitalization, 293

P

Paediatric Research Society of Australia: Abstracts presented at the 17th Annual meeting, 22 May 1984, 337
Paediatric: telephone consultations, 113
Peadiatricians: an expanding role; and children with school problems (Invited Review), 271
Parents: comparing; of abused children and of children with non-organic failure to thrive, 177
Percentile charts: for weight distributions of Tasmanian children, 105
Perinatal: morbidity in very low birthweight infants, 293
problems and cognitive development, 23
Perinatology in Australia (Editorial Comment), 277
Persistent pulmonary hypertension, 123
Pertussis vaccination: controversy (Editorial Comment), 91
in infants and children with whooping cough, 101
Phototherapy: treatment for jaundice in full term healthy neonates, 303
Plication of the diaphragm: in a case of neonatal bilateral paralysis, 331
Po_2 monitoring: during acute asthma, 213
of infants at risk of 'sudden infant death syndrome', 137
techinques in the newborn infant, 309
Portal hypertension: extrahepatic; control of bleeding, 147
Portal-systemic shunts: to control bleeding in extrahepatic portal hypertension, 147
Pregnancy: multiple or singleton; ultrasonic fetal weight estimation, 59
Preschool: morbidity, 281
Preterm infants: pulmonary air leaks in (Editorial Comment), 279
role of renin and aldosterone in the establishment of their electrolyte balance, 209
systemic candidiasis in, 127
Primary health care; for Indo-Chinese children in Australia, 57
peadiatric telephone consultations, 113
Prognostic factors: of thoracic neuroblastoma (Invited Review), 17
Progressive dystonia: with marked diurnal variation in a Chinese family, 143
Prolonged hospitalization: of very low birthweight infants, 293
Proteolytic enzyme deficiency: confirmed by the use of a fluorometric mircoassay of trypsin/enteropeptidase, 313
Pseudocyst: abdominal; recurring after ventriculoperitoneal shunt, 73
Pulmonary air leaks: in ventilated preterm infants (Editorial Comment), 279
Pulmonary hypertension: survival after prolonged and persistent, 123
Pulmonary interstitial emphysema: selective intubation, 317

R

Radiological: diagnosis; accuracy of in a Casualty Department, 221
services in a hospital Emergency Department, 109
Recurrent abdominal pseudocyst: after ventriculoperitoneal shunt, 73
Rehydration: oral (Annotation), 7
Reliability: of mothers' reports of birth data, 185
Renal failure: in Henoch-Schölein purpura, 13
Rendle-Short, Professor John (Retirement), 175
Renin-angiotensin-aldosterone system: in the establishment of electrolyte balance in very low birthweight infants, 209
Respiratory muscles: in children with asthma and cystic fibrosis who are undergoing a home exercise programme, 297
Ressuscitation: newborn (Letter to the Editor), 77
Rotavirus (Invited Review), 271
Rumpa: a new virus (Letter to the Editor), 77

S

Salmonella menigitis: in infancy, 225
Serratia: a problem in a neonatal nursery, 205
School problems: and the expanding role of the paediatrician (Invited Review), 271
Single parent families: (Annotation), 171
the health care needs of the children, 203
Singleton pregnancy: ultrasonic fetal weight estimation, 59
Strangulated: umbilical hernia in infancy, 75
Sudden infant death syndrome: home monitoring of infants at risk, 137
metal content of the liver, 141
Systemic candidiasis: in premature infants, 127

T

Tasmania: Giardiais in (Letter to the Editor), 259
weight distribution of the children, 105
Techniques: of Po_2 monitoring in newborn infants, 309
Temperament: of Australian children, 181
Test-age relationships: in (audiometrically) difficult-to-test children, 115
Testicular relapse: in childhood acute lymphoblastic leukaemia in Malaysia, 53
Theophylline: plasma levels as an indicator of medication compliance in children with asthma, 47
Thoracic neuroblastoma (Invited Review), 17
Titrimetric assay: comparison with a fluorometric microassay for trypsin and enteropeptidase, 313
Torsion of the testicle: in Henoch-Schölein purpura, 13
Toxoplasmosis: acquired; associated with haemolytic anaemia, 333
Transcutaneous oxygen monitoring: in acute asthma, 213
Trypsin and enteropeptidase fluorometric mircoassay: comparison with a titrimetric assay, 313

U

Ultrasound: detection of fetal urinary tract abnormalities, 67
fetal weight estimation in multiple and singleton pregnancy, 59
Umbilical hernia: strangulated; in infancy, 75
Use of bililrubin binding capacity in predicting the development of kernicterus, 63
Urinary tract abnormalities: fetal; detection on maternal ultrasound, 67

V

Vaccination: of infants and young children with whooping cough, 105
pertussis controversy (Editorial Comment), 91
Ventilated: preterm infants; pulmonary air leaks in (Editorial Comment), 179
Ventilation: intermittent positive pressure; use in persistent pulmonary hypertension, 123
Ventriculoperitoneal shunt: subsequent recurrent abdominal pseudocyst, 73
Very low birthweight infants: necrotizing enterocolitis, 29
neonatal apnoea, in, 131
outcome of those who require prolonged hospitalization, 293
role of renin and aldosterone in the establishment of the electrolyte balance, 209
Virus: croup; humidification for, 289
meningoencephalitis due to Echo 27; agammaglobulinaemia, 229
rotavirus (Invited Review), 9
rumpa (Letter to the Editor), 77

W

Weight: and height relationship to demographic variables, 35
distributions in Tasmanian children, 105
estimate using ultrasound, 59
Whooping cough: high admission rate for; in infants and children, 101
